

Groups travels: an expert partner.

2010

Boscolo
Travel inside

A long and beautiful fairytale for groups.

We never stop - anticipating the market trends, studying original itineraries and creating unique products based on an exclusive synergy between our tour operator and our hotels: our leadership in travel business is born out of the desire to offer reliable products, competitive for variety and richness of content, and competitive for quality towards price. You can always count on us, from the classic itineraries to the most innovative itineraries. For more than 30 years.

Groups: a growing feeling.

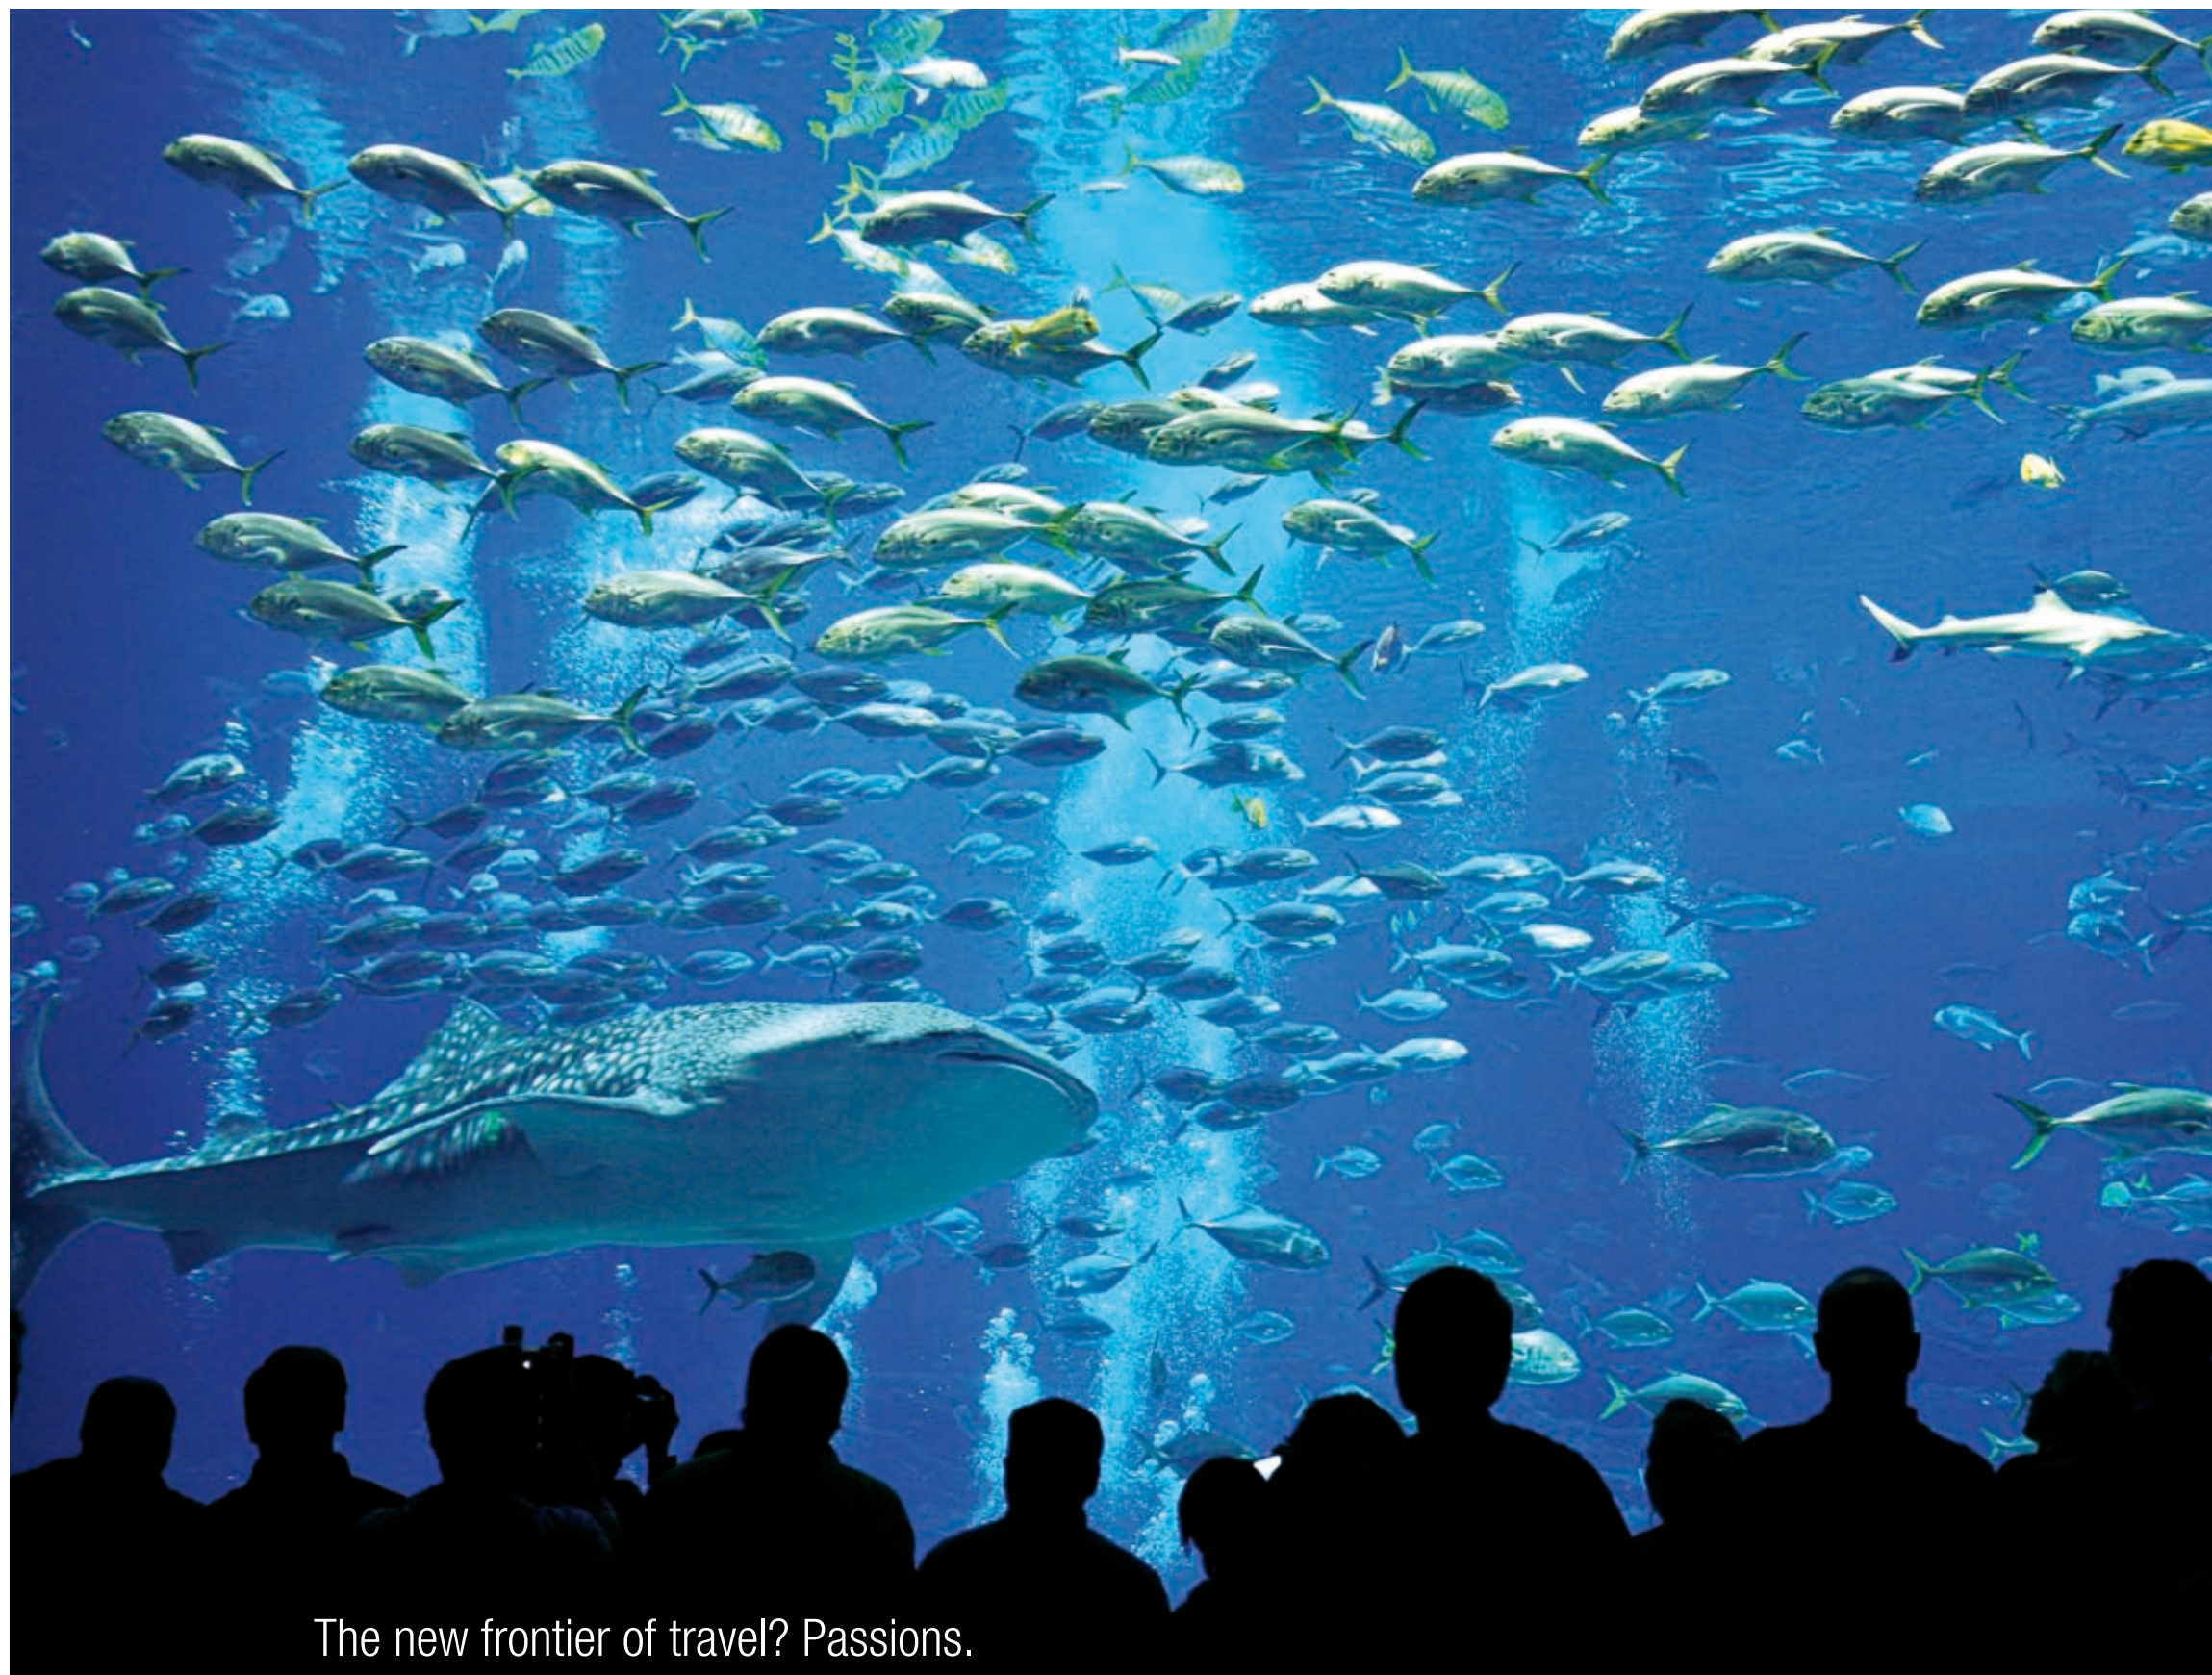

We dedicate to groups our professionalism and energy. Our specialised staff collaborates with travel agencies to create the itineraries to provide a always perfectly arranged journey, in tune with client's need. Trustworthiness and commitment are precise: quick quotations (within 48 hours), direct knowledge of the hotels and suppliers, assistance to the group while travelling, every day of the year. We will not be for you just a supplier but a business partner full of spirit, initiative and resources.

Boscolo Group: global travel.

Boscolo Group is a holding of companies that work in the world of travel, the hotel business and the restaurant business, Boscolo Hotels and B4 are two chains, luxury and four star hotels, of new design and extraordinary charm; Boscolo Etoile Academy is a well know high class culinary school for pastry chefs. The common denominator is our search for excellence, the capacity to activate a privileged relationship with the travel agent and the client, based on total understanding and passion.

The new frontier of travel? Passions.

The world of travel has changed. Today our clients are not only moving to reach famous places but also to pursue their interests and passions, to live out their emotions and expectations. We have accepted the challenge, enriching our best selling products with special experiences, and launching new themed products in which you will find a more personal dimension. All our journeys are today more qualified and competitive, dedicated to the travel agencies that wish to grow.

Groups passions. To Italy and more.

Landscapes, archaeology and cities of art, medieval villages and territories of excellence, and with products of international fame: Italy is a universal myth. Our itineraries will give your clients the taste of the marvellous variety in richness of the Bel Paese. Furthermore you will find in the catalogue many selected European destinations, itineraries treated with the same care and passion. Variety, quality and charm are all at your disposal to win your client!

Small groups with big passions.

You need ten people that would like to share a cultural, artistic or gastronomic passion and the journey can begin, with competitive group prices and individual quality of service. Our programmes are detailed and original and they offer top levels of hospitality as at prestigious hotels belonging to the Boscolo Group. Flexible and personalised, the journeys for small groups are innovative and secure products, dedicated to your top clients - the clients that love to travel often and with style.
